TRANSFERRED OF SEALED SOURCES

The following sealed sources will be transferred from Kardio Nuclear, Hospital San Carlos de Borrome, 1st Floor, 550 Concepción Vera Ayala Street, Moca Puerto Rico, license number 52-30841-02, ducket number 030-38197 to the following address Nuclear Medicine Laboratory, Nuclear Medicine Inc., Edificio Médico Menonita, Oficina 209, Carr 14 Barrio Rincón, Sector LomasCayey, PR. license number 52-30841-01, ducket number 030-36419. Please include these sources in your sealed sources inventory immediately upon receipt.

The Gd-153 Disk Sealed Source is used for the Gamma Camera daily calibration. This particular sealed source should be transferred to Dr. Carlos García facility. However it should remain in your facility for safety precautions, until the movement of the gamma camera is completed. Any questions regarding this matter you can contact me at (787) 612-6825.
