## South Carolina State Commission of Forestry

JOHN R. TILLER  
STATE FORESTER

P. O. BOX 287  
COLUMBIA, S. C. 29202

April 27, 1973

Mr. Daniel R. Muller  
Asst. Dir. for Environmental Projects  
Directorate of Licensing  
United States Atomic Energy Commission  
Washington, D. C. 20545

50-261

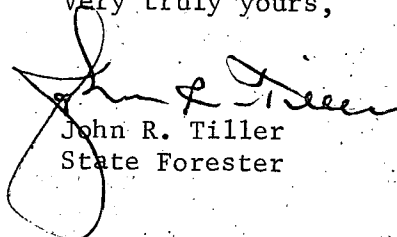

Dear Mr. Muller:

We have reviewed the Draft Environmental Statement pertaining to the H. B. Robinson Nuclear Plant, Unit No. 2 for possible impact on forest land.

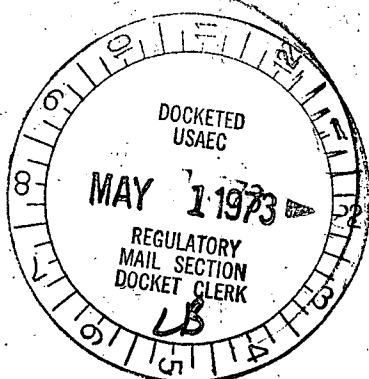

Our only experience with slightly increased atomic radiation on forest growth is from the A.E.C. plant near Aiken. From all reports there are no apparent detrimental effects and therefore no objection or suggestions on that point.

We realize that 230 KV lines must be quite wide and that deviations from shortest route expensive. As in other environmental impact statements we have submitted, we urge avoidance of forest land in preference to open land where feasible, purchase and removal of danger trees rather than excessive pruning to avoid insect attacks in adjoining woodland and full utilization of all timber necessarily removed for construction rather than waste of this resource.

Very truly yours,

  
John R. Tiller  
State Forester
