CP&L

Carolina Power & Light Company

May 15, 1974

Mr. John F. O'Leary
Directorate of Licensing
Office of Regulation
U. S. Atomic Energy Commission
Washington, D. C. 20545

RE: DOCKET NO. 50-261

Dear Mr. O'Leary:

In our letter of April 26, 1974, Carolina Power & Light Company notified the AEC that we were preparing an application to the EPA for exemption of the H. B. Robinson Plant Impoundment under Section 316(a) of PL 92-500. Upon completion of the EPA review of this application, CP&L expects to determine a course of action to meet applicable water quality requirements at the Robinson Plant.

In order to keep the Commission completely informed with regard to the status of water quality certification of the Robinson Impoundment, we are herewith transmitting copies of three letters from the State of South Carolina Pollution Control Authority. These letters demonstrate that the Robinson Impoundment has been certified as an industrial facility and that various sections of the Federal Water Pollution Act of 1972 (PL 92-500) do not apply to this impoundment. The Company understands that South Carolina certification was completed with transmittal of these letters, and we anticipate no further requirements for certification from the State of South Carolina.

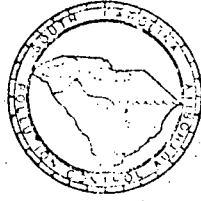

Yours very truly,

J. A. Jones
Executive Vice President

Re: H. B. Robinson
Steam Electric Plant
Unit No. 2

Dear Sir:

The South Carolina Pollution Control Authority has evaluated information supplied to the Authority by Carolina Power and Light Company. Based on this information the Pollution Control Authority certifies that there is reasonable assurance that this project will not violate applicable water quality standards.

Yours very truly,

H. J. Webb
Executive Director

Re: Robinson Impoundment
Darlington County

Dear Sir:

The South Carolina Pollution Control Authority has reviewed the past history of the development of this project and has issued a Water Quality Certificate and appropriate permits for the H. B. Robinson Unit No. Two. Based on the issuance of this certification and permits, the South Carolina Pollution Control Authority has, in effect, designated this body of water as an impoundment as defined under Section I of the Water Classification Standards System for the State of South Carolina.

Yours truly,

H. J. Webb
Executive Director

Re: H. D. Robinson Steam
 Electric Plant
 Unit #2

Dear Sir:

The following supplements my letter of November 16, 1972.

With respect to the Robinson impoundment this is to confirm that as of this date there is no applicable effluent limit or other limitation under Sections 305 (b) and 302 nor is there an applicable standard under Sections 305 and 307 of the Federal Water Pollution Control Act (PL 92-500) dated October 18, 1972.

Yours very truly,
