Mr. Daniel R. Muller  
Assistant Director for Environmental  
Projects  
Directorate of Licensing  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

Dear Mr. Muller:

Re: Draft Environmental Statement, H. B. Robinson  
Steam - Electric Plant Unit 2, Carolina Power  
and Light Company, Docket No. 50-261

The subject draft environmental statement and related environmental report were referred to the North Carolina Department of Natural and Economic Resources, the North Carolina State Board of Health, and Regional Clearinghouses for Multi-County Planning Regions F, H, and N for review and comment. Responses to this office by June 25, 1973, were requested.

We are enclosing for your use the comments of the State Board of Health. We have not received comments from any of the other agencies listed above. Should we receive further comments, we will forward them to you immediately.

Sincerely yours,

A handwritten signature in cursive script, reading "R. Hendricks".

Re: File No. 52-73  
Draft Environmental Statement  
H. B. Robinson Nuclear Steam - Electric Plant  
Unit 2  
Carolina Power and Light Company  
Hartsville, South Carolina  
Docket No. 50-261

Dear Mr. Hendricks:

This is in reference to your memorandum dated May 29, 1973, requesting comments on the Draft Environmental Statement for the H. B. Robinson Nuclear Steam - Electric Plant, Unit 2.

The Draft Environmental Statement describes the potential environmental impact associated with the proposed continuation of the existing operating license for H. B. Robinson Unit 2. Unit Number 2 employs a pressurized water reactor to produce up to 2200 megawatts thermal and is located near Hartsville, South Carolina, approximately 28 miles from North Carolina.

Sanitary Engineering Division staff members have reviewed the subject Draft Environmental Statement with respect to our responsibilities for radiation protection and for protection of public water supplies.

None of the surface waters affected by this plant enter North Carolina. Therefore, its operation will have no impact on public water supplies in North Carolina. In addition, according to the radioactivity data submitted and considering the 28 mile distance from North Carolina, the H. B. Robinson Nuclear Plant will have no effect on radiation exposures of North Carolina citizens.
