Mr. Edson G. Case, Deputy Director

Office of Regulation
U. S. Atomic Energy Commission

Dear Mr. Case:

H. B. ROBINSON UNIT NO. 2
LICENSE DPR-23
ROUTINE OPERATING REPORT NO. 8

In accordance with Section 6.6.1, Technical Specifications, H. B. Robinson Unit No. 2, forty-five (45) copies of the eighth Routine Operating Report are being forwarded under separate cover, along with forty-five copies of the Environmental Monitoring Report prepared by our contractor, Eberline Instrument Company, which is an integral part of the Routine Operating Report. It should be noted that the Environmental Monitoring Report contains data for only the first quarter collected fish samples instead of both quarters as required by Section 4.10 of the Technical Specifications. The second quarter samples were obtained on June 19, 1974, within the required quarterly period, but the analyses of the samples were delayed so that the data could not be included in this report. It will be included in the Environmental Monitoring Report for the next semi-annual period.

Yours very truly,

E. E. Utley
Vice-President
Bulk Power Supply
