Re: H. B. Robinson Project  
 Carolina Power and Light Co.  
 Hartsville, S. C.

Dear Mr. Dittman:

The position of the South Carolina Department of Health and Environmental Control concerning the relationship between State/Federal Water Quality Standards and the provisions of Section 316 (a) of the Federal Water Pollution Control Act of 1972 (PL 92-500) for this project is as follows:

The State of South Carolina will not require the NPDES permit to contain effluent limitations derived from its water quality standards if the evidence submitted by a 316 (a) demonstration substantiates that the standards are excessively stringent in this particular case.

In the technical evaluation of this specific project this agency will evaluate carefully submissions concerning the conditions in Black Creek above Robinson Impoundment and those conditions below the Impoundment.

Sincerely yours,

*Charles R. Jeter*  
 Charles R. Jeter, P.E., Director  
 Industrial & Agricultural Division
