Under penalty of perjury, I, Derek Coronado, declare as follows:

2. Citizens Environment Alliance has 45 active members, several of whom live within 50 miles of the Fermi 2 nuclear power plant site. CEA is concerned that if the NRC grants the DTE relicensing request that the operation of the nuclear power plant could adversely affect the health and safety and the integrity of the environment in which CEA members live.

3. In order to ensure that the re-licensing decision for Fermi 2 protects the interests of CEA members in a safe and healthy environment, CEA formally seeks to intervene on behalf of its members who have attached declarations, in any re-licensing proceeding and /or related rulemaking proceeding that concerns the safety and environmental impacts of the Fermi 2 nuclear power plant near Monroe, Michigan. CEA intends, on behalf of its member(s), to take any legal actions necessary to ensure the re-licensing proceeding and the rulemaking proceeding are conducted fairly, efficiently and in a manner that provides the full consideration of all re-licensing issues that could affect the safety and health and the health of CEA members and their living environment.

I hereby declare under penalty of perjury that the foregoing facts are true and correct and that any expressions of opinion are based on my judgment.

**DECLARATION OF LEONARD MANDEVILLE IN SUPPORT OF
PETITION TO REQUEST A PUBLIC HEARING AND LEAVE
TO INTERVENE ON THE DTE APPLICATION TO RELICENSE
FERMI NUCLEAR POWER PLANT, UNIT 2**

The following statements are true under the penalty of perjury.

1) My name is Leonard Mandeville. I am a member of Don't Waste Michigan, a grassroots coalition located within the State of Michigan, hereinafter referred to as the "Petitioner."

2) I reside at 1280 S. Raisinville Rd. Monroe, MI 48161. My home is located within the Emergency Planning Zone for the Fermi Unit 2 ("Fermi 2") nuclear power plant operated by Detroit Edison Company, which has filed an application before the United States Nuclear Regulatory Commission to extend the nuclear power plant's operating license by 20 years.

3) I believe that the application for the license extension of Fermi 2 is inadequate as written and my interests will not be adequately represented absent participation in this action to intervene and absent the opportunity of the Petitioner to participate as a full party in this proceeding on my behalf. I therefore declare that Don't Waste Michigan is my designated representative in this proceeding. If the Fermi 2 nuclear power plant license is renewed without resolving the Petitioner's safety and environmental concerns, this nuclear power plant may operate unsafely and pose an unacceptable risk to the environment and to my health and safety, as a member who lives, recreates and conducts business within the affected vicinity of the nuclear power reactor. I am concerned that if an accident were to occur at Fermi 2 nuclear power plant, I might be killed, injured or sickened by the radioactive releases.

Leonard Mandeville

**DECLARATION OF AUTHORIZED OFFICER OF BEYOND NUCLEAR IN
SUPPORT OF PETITION TO INTERVENE IN DOCKET NO. 50-341 LRA, 2014-0109**

Under penalty of perjury, I, Kevin Kamps, declare as follows:

1. I am authorized by Beyond Nuclear, 6930 Carroll Ave, Takoma Park, MD 20912 to sign this Declaration. Beyond Nuclear is formally and officially opposed to the re-licensing and operation of the Fermi Unit 2 ("Fermi 2") nuclear power plant for which Detroit Edison Company (DTE) has submitted a License Renewal Application (re-licensing request) to the Nuclear Regulatory Commission (NRC).

2. Beyond Nuclear has 20,000 active members, several of whom live within 50 miles of the Fermi 2 nuclear power plant site. Beyond Nuclear is concerned that if the NRC grants the DTE re-licensing request that the operation of the nuclear power plant could adversely affect the health and safety and the integrity of the environment in which Beyond Nuclear members live.

3. In order to ensure that the re-licensing decision for Fermi 2 protects the interests of Beyond Nuclear members in a safe and healthy environment, the group formally seeks to intervene on behalf of its members George Steinman and Shirley Steinman who have attached declarations, in any re-licensing proceeding and /or related rulemaking proceeding that concerns the safety and environmental impacts of the Fermi 2 nuclear power plant near Monroe, Michigan. Beyond Nuclear intends, on behalf of its member(s), to take any legal actions necessary to ensure the re-licensing proceeding and the rulemaking proceeding are conducted fairly, efficiently and in a manner that provides the full consideration of all re-licensing issues that could affect the safety and health of Beyond Nuclear members and their living environment.

I hereby declare under penalty of perjury that the foregoing facts are true and correct and that any expressions of opinion are based on my judgment.
