**SUBJECT: BYRON STATION, UNITS 1 AND 2 – REQUALIFICATION PROGRAM  
INSPECTION**

Dear Mr. Pacilio:

In a telephone conversation on August 20, 2014, Mr. M. Bielby, Senior Operations Inspector, and Mr. T. Sanders, Licensed Operator Requalification Training Lead, made arrangements for the U.S. Nuclear Regulatory Commission (NRC) to inspect the Licensed Operator Requalification Program at the Byron Station, Units 1 and 2. The inspection is planned for the week of December 1, 2014, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved Requalification Program.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 55.59(c), the NRC may request facility licensees to submit their biennial comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish the written examinations, and operating tests scheduled for the week of the inspection to the NRC by November 18, 2014. Mr. Sanders has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.
