Good afternoon.

My name is Michelle Dugan and I am Executive Director of the Monroe County Chamber of Commerce, an organization dedicated to being a resource for businesses in Monroe County.

The Chamber supports the Fermi 2 license renewal application and so do I.

Since its inception, Fermi has been an economic powerhouse in Monroe County. The high quality jobs that they have provided Since it was licensed in 1985, have pumped hundreds of millions of dollars into our local economy. Even more importantly, the plant has helped provide a reliable supply of electricity to the residents and businesses of Monroe County and the rest of southeast Michigan. DTE generates over 40% of the state's power supply right here in Monroe County.

Renewing the license of Fermi 2 is a cost-effective way to ensure that DTE Energy is able to continue providing reliable, affordable electricity to our county and region for decades to come.

Thank you.
