Docket No. 52-017  
COL/BCB

**DOMINION VIRGINIA POWER**  
**NORTH ANNA UNIT 3 COMBINED LICENSE APPLICATION**  
**GROUNDWATER FLOW MODEL DATA FILES**

On August 14, 2014, the NRC Project Manager for the North Anna Unit 3 (NA3) project requested that Dominion submit computer input/output data files that were used in the groundwater modeling to facilitate the staff's review of the NA3 Combined License Application (COLA).

As requested, this letter provides the groundwater flow model analysis computer input/output data files and georeferenced (shape) files. These files, along with an index that describes each file, are provided on a digital versatile disc (DVD) in Enclosure 1.

The computer code files are submitted in the native format required by the software in which they may be used to support the staff's analysis. Therefore, the files on the enclosed DVD are not considered documents as defined in Section 2 of the NRC's "Guidance for Electronic Submissions to the NRC," Revision 6.1, dated May 27, 2011.

Please contact Regina Borsh at (804) 273-2247 (regina.borsh@dom.com) if you have questions.

Very truly yours,

Mark D. Mitchell

Enclosure:

1. DVD Containing Groundwater Flow Model Input/Output Data Files and Georeferenced Files.
