

NOTE TO FILE

Licensee Name: R.O.V. Technologies, Inc.

License No.: 44-30912-01

Docket No.: 03036563

Mail Control No.: 583823

The NRC License issued to R.O.V. Technologies, Inc. (ROV) has an expiration date of November 30, 2014. ROV submitted a renewal application dated April 29, 2014. Typically, renewal applications are received at least 30 days prior to the expiration date. The NRC acknowledged the renewal application and sent a deemed timely letter dated May 7, 2014.

The April 2014 renewal application did not follow the NUREG-1556 Volume 18 guidance and a Request for Additional Information (RAI) dated May 21, 2014 was sent to ROV. ROV asked for an extension and in August ROV hired a consultant to assist them with the renewal application.

ROV sent the NRC a letter dated August 20, 2014 requesting retraction of the renewal request and a commitment to not provide the deemed timely letter. ROV's consultant is preparing a more comprehensive and complete renewal application and will submit it at least 30 days prior to the license expiration date. A letter dated August 25, 2014 informed ROV that the NRC has voided the renewal application without prejudice of a resubmittal.

This not to file documents the facts necessary to support the voidance of a renewal application.
