Thanks Sam,

I'm with the team now and will discuss if any additional changes are needed.

Thanks again,  
Al

Al,

Based on our discussions last week, attached is an updated draft of Appendix C, "Safety Analysis Report Supplement and Changes," Revision 1, for the Prairie Island ISFSI License Renewal Application (LRA).

This version of Appendix C has been updated to refer to the High Burnup Fuel Monitoring Program, both in Section 9.8.1 and in a new Section 9.8.4. The new section addresses the scope of the program and the assessments that NSPM will perform based on the industry's surrogate program (HDRP). We felt that adding a new section to discuss the High Burnup Fuel Monitoring Program would be more consistent with the organization and presentation in the Aging Management Program, LRA Appendix A, Revision 1, which was included with the July 31 RAI response letter.

We believe the attached file addresses the concerns discussed last week, and are open to any feedback that you and your reviewers can provide. We are available for telephone discussions if you have issues with the attached or other information related to the LRA. Please feel free to call my cell number 303-358-5235 any time.

Best regards,
