Bill

Just wanted to let you know that I am working on this issue from my end.

Thanx

Alicia

Attached you will find a copy of the 2<sup>nd</sup> quarter invoice.

I have written the project managers (cc'd here) about a) correcting the charges against incorrect TACs (RN7442 and RN7443) and, b) asking for additional detail associated with TACs RX0546, RX0655, RX0658, RX0688, and RX0824.

For the additional detail on the TACs above, I was referred to your office to provide that detail. I believe this information is related to the request I made in reviewing last quarters invoice and is listed in the thread below.

Can you please provide any insights into the charges listed in these TACs, as I need to do my due diligence in reviewing these invoices to insure that the project is being appropriately charged for services and that there are not any billing errors, similar to those identified in a) above?

Bill

Mr. Maher,

I have an internal meeting set up next week to discuss this. We should have an answer for you after that time. Thank you for your patience.

Thx for providing this report.

As a follow-up from last month's invoice and discussion, FPL requested a breakdown of the contracted services line item in the invoice to provide greater clarity and detail (other than just a line that shows the costs of those services) so that FPL could verify the costs associated with that line item are, in fact, related to the 6&7 project. After discussions, FPL was told that OGC needed to be consulted for a determination for providing that detail.

Has this consultation occurred and, if so, what was the result?

Bill

**Subject:** New Fee Estimates through 06/28/2014

Please see the new estimates for fee costs through June 28, 2014 that are attached to this email. If you have any questions, please feel free to contact me.

Sincerely,  
Jenna
