Subject: RE: Response to RAIs Regarding Prairie Island ISFSI License Renewal

John,

The applicant did not submit a revised 'Safety Analysis Report Supplement and Changes' in their response. This would be a revised Appendix C of the original LRA. For instance, this appendix in the original LRA states that 'no aging effects were identified for the spent fuel assemblies.' We need to receive the revised document to be able to finalize the SER.

Note that Attachment A in the RAI response is not a revised Appendix C - it only addresses changes as a response to RAI-1.

Thanks,
Ricardo

Subject: FW: Response to RAIs Regarding Prairie Island ISFSI License Renewal

Hello,

Attached is a copy of the RAI responses regarding Prairie Island ISFSI License Renewal. I believe I sent to all the reviewers on the team. Please let me know if I miss anyone.

Based on what I heard yesterday the Center does not need to review this information; however, if they are the one that put the entire SER together, I thought it would be appropriate to send them a copy. Typically the PM should know this, but since this is my third day on this project, I am still trying to find my way around.

Thank you.

Subject: Response to RAIs Regarding Prairie Island ISFSI License Renewal

John-Chau,

Attached is an informal copy of NSPM's response to the Second RAI for the Prairie Island ISFSI LRA.

Copies have been sent to the Document Control Desk via the EIE submittal process.

Also, 8 CD copies of this response are being sent to your attention via FedEx, for use by your reviewers.

Note that the response letter is marked Proprietary because of a Proprietary vendor calculation included as Enclosure 4. A Non-proprietary copy is also attached (without Enclosure 4) and a Non-Proprietary CD is being sent to your attention.

Please contact me if you have any questions or if you have any difficulty accessing the files.

Best regards,

Sam Chesnutt
