Mr. John F. O'Leary, Director
Directorate of Licensing
Office of Regulation
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. O'Leary:

50-261

H. B. ROBINSON UNIT NO. 2
LICENSE DPR-23
ISOLATION VALVE SEAL WATER SYSTEM

In our letter of January 28, 1974, (NG-74-80) we requested a change to the Technical Specifications for H. B. Robinson Unit No. 2 concerning the removal of specifications applicable to the Isolation Valve Seal Water System since the operation of the system was not considered in the calculation of offsite doses after a containment pressurization incident but was used only to provide conservatism to the containment design. However, after further consideration of the system and its function, we have concluded that removal of this system from the Technical Specifications may be unwarranted at this time. Thus, Carolina Power & Light Company respectfully requests that we be allowed to withdraw this proposed change to the Robinson Technical Specifications.

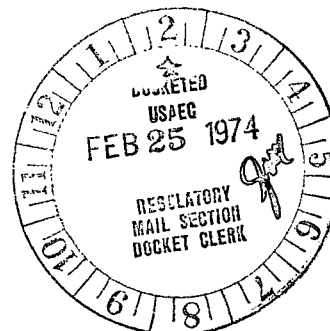

Yours very truly,

N. B. Bessac
