**Subject:** RE: NECR Near Term Deliverables - Proposed Consolidation Evaluation Attached  
**Attachments:** Consolidation\_Field\_Data\_Letter \_EPA\_6-25-14\_Attachments.pdf

Good Afternoon All:

Attached for your review and comment is a letter proposing additional consolidation evaluations for the proposed NECR Mine Spoils repository construction at the UNC Mill Site. The letter includes a figure showing updated tailing impoundment conditions and a table summarizing the applicable Predesign Study Results. Please let me know if you would like to have a call to review the letter and discuss your comments.

Unless specifically requested, we do not plan to mail hardcopies.

Thank you for your attention on this matter. We look forward to receiving your input.

Lance

**Subject:** NECR Near Term Deliverables

Hi All:

I wanted to let you know that early next week we plan on submitting a memo proposing the updated consolidation evaluation which will be performed using the results of the pre-design studies. This memo will include tables summarizing the predesign data and will describe the approach and various profiles we plan to model. After receiving agency input on the memo, we will proceed with the evaluation. After you have completed your initial review, if you would like, we can schedule a call to discuss the memo.

We are also planning on submitting reports on the mine and mill pre-design studies in the middle of July. As the reports progress, we will provide additional updates on the schedule and submittal dates.

Best regards,  
Lance
