**Docket Nos. 50-387  
and 50-388**

*Reference: Letter, J. A. Franke (PPL) to Document Control Desk, "Request for Approval of Security Safeguards Information Room, PLA-7140," dated April 2, 2014.*

In the referenced letter, PPL Susquehanna LLC (PPL) requested approval of the modified Nuclear Security Safeguards Information (SGI) Room located on the first floor of the North Gatehouse at Susquehanna Steam Electric Station. Although initially indicating that Nuclear Regulatory Commission (NRC) approval of the SGI Room was necessary, the NRC has determined that evaluating and processing the changes associated with the SGI Room in accordance with 10 CFR 50.54(p) is the appropriate process. PPL will evaluate and process the change in accordance with 10 CFR 50.54(p). As a result, the referenced letter and associated request are being retracted.

There are no new regulatory commitments contained in this correspondence.

Should you have any questions regarding this matter, please contact Mr. James A. Gorman at (570) 542-1677 or Mr. Frank C. Lauri at (570) 542-1725.

Sincerely,

J. A. Franke
