UNITED STATES  
NUCLEAR REGULATORY COMMISSION

REGION IV  
1600 E LAMAR BLVD  
ARLINGTON, TX 76011-4511

September 2, 2014

Adam C. Heflin, President and  
Chief Executive Officer  
Wolf Creek Nuclear Operating Corporation  
P.O. Box 411  
Burlington, KS 66839

SUBJECT: NON-PUBLIC SECURITY INSPECTION PLAN FOR WOLF CREEK  
GENERATING STATION (NRC PHYSICAL SECURITY INSPECTION  
REPORT NUMBER 05000482/2014402)

Dear Mr. Heflin:

On August 12, 2014, the NRC completed its mid-cycle performance review of Wolf Creek Generating Station. The results of that review have been transmitted to you separately in publicly available assessment letter. This letter informs you of the NRC's plans for future security-related inspections at your facility.

The enclosed inspection plan lists the security-related inspections scheduled through December 31, 2015. The inspections listed during the last nine months of the inspection plan are tentative and may be revised at the next semiannual performance review. The NRC provides the inspection plan to allow for the resolution of any scheduling conflicts and personnel availability issues. The NRC will contact you as soon as possible to discuss changes to the inspection plan should circumstances warrant any changes. Routine force-on-force inspections are conducted approximately every 3 years. You will be notified by separate correspondence 8 to 10 weeks in advance of any force-on-force inspections scheduled for your facility.

While we are fully committed to our goal of ensuring openness in our regulatory process, we must balance that goal with the more immediate need of ensuring the continued safety and secure operation of nuclear facilities and the protection of nuclear materials in our country. Thus due to the security-related information contained in this correspondence, and

**"Enclosure transmitted herewith contains SUNSI. When separated from enclosure, this transmittal document is decontrolled."**
