NRC Docket Number: 70-3103

Subject: Supplement to Reply to Notice of Violation 70-3103/2013-203

Reference: 1. Reply to Notice of Violation Letter from S. Cowne (UUSA) to NRC,
U.S. Nuclear Regulatory Commission Inspection Report No. 70-
3103/2013-225 and Notice of Violation, dated May 5, 2014

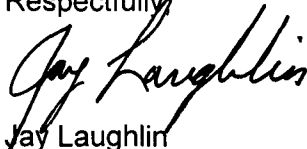

In Reference 1, Reply to Notice of Violation (Notice), Section 3, Violation B; ER 2014-483 action 2 is due to be completed by August 29, 2014. UUSA has moved the completion date of this action to September 19, 2014.

The reason for the date change to three weeks from the original date is to provide additional time to allow for processing of the affected procedure. The procedural guidance has been developed and incorporated into an Operations procedure, but it is still within the procedure approval process. This date change facilitates the review process across the departments.

UUSA apologizes for the change of the completion date for this action.

Should there be any questions regarding this submittal, please contact Timothy Knowles, UUSA Manager of Licensing and Performance Assessment, at 575.394.6212.

Respectfully,

A handwritten signature in black ink that reads "Jay Laughlin".
