

Technical Assistance Request

09/12/2014

The Fuel Manufacturing Branch, in the Division of Fuel Cycle Safety and Safeguards, requests technical assistance for the following project.

PROJECT: Renewal of Special Nuclear Materials License SNM-95

DOCKET NO: 70-113

TAC NO: L33343

ADAMS NO: ML14219A483

REQUESTED ACTION: Review a request to renew license SNM-95, submitted by Penn State. Determine if there are major deficiencies that make the submittal unacceptable for detailed review and prepare a recommendation to accept or deny (if required). Prepare requests for additional information, if needed. Evaluate any additional information submitted. Participate in meetings, conference calls, and site visits, if necessary. Provide input for a Safety Evaluation Report.

The above task is estimated to require approximately 200 staff hours.

Results of the review are requested by the following dates:

Acceptance review9/15/14
RAIs2/24/15
SER.....5/27/15

Branch Chief, please provide the following information:

- Technical Reviewer
- Acceptance review target date
- RAI input target date
- SER input target date

Contacts: PM Christopher Ryder, (301) 287-0651
LA Tamyra Brockington, (301) 287-0641

Documents involved in the review may contain Safeguards, official use only, and proprietary information. The documents need to be handled accordingly.
