To the Nuclear Regulatory Commission,
I am writing against the proposed uranium mine project in Crook County.
I have commercial and private property in Hot Springs, South Dakota.
Crook county uses the same Madison aquifer that we do for drinking, but
this was not always so. Not until you allowed the Christianson Ranch.
While man may draw invisible boundaries on the ground, he can't do it
with the water. It is a misuse of quality drinking water. The NRC is
bound by laws to protect the public, these laws need to be followed. As
everyone in the USA understands how little the supply is of drinking
water.

Thank you,
Jerri Baker
