Ms. Janice Nguyen
Senior Health Physicist
Division of Nuclear Materials Safety
US Nuclear Regulatory Commission Region 1
RE: Mail Control Numbers 584198 and 584199

Dear Ms. Nguyen,

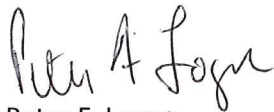

I am writing in follow-up to our recent phone conversation regarding the Primed change in ownership of the Cardiology imaging services.

First, I am confirming that this was a direct transfer of ownership of the cardiology imaging services to NEMG, and that NEMG is owned by Yale New Haven Health Services.

Second, I understand from our phone conversation that we are not able to designate two radiation safety officers. Therefore, we would like to have Dr. Gregory Bloom named as the radiation safety officer.

If I can be of further assistance or you need additional information, please do not hesitate to contact me.

Sincerely,

Peter F. Logue
Executive Director
Northeast Medical Group
