H. B. ROBINSON STEAM ELECTRIC PLANT, UNIT NO. 2
DOCKET NO. 50-261/LICENSE NO. DPR-23
NOTIFICATION OF CHANGE IN LICENSED
OPERATOR LICENSE RESTRICTIONS

Gentlemen:

Carolina Power & Light (CP&L) Company submits the attached Certification of Medical Examination by Facility Licensee (i.e., NRC Form 396) and the examination physician's medical statement for a licensed Senior Reactor Operator at the H. B. Robinson Steam Electric Plant (HBRSEP), Unit No. 2. The individual's name, license number, and docket number is provided in Attachment I to this letter. The NRC Form 396 is being submitted in accordance with 10 CFR 55.25 and 10 CFR 50.74 to reflect a change in licensed restrictions for the referenced individual and as provided as Attachment II to this letter. The licensee's routine medical examination determined that the licensed operator listed in Attachment I to this letter is no longer restricted to the use of corrective lenses while performing licensed duties; therefore, there are no restrictions that are now applicable to the license. The NRC Form 396 is being transmitted to Region II only.

In accordance with 10 CFR 2.790(a)(6), CP&L requests that the information in the attachments be withheld from public disclosure because the attachments contain personnel and medical files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Accordingly, the attachments are being transmitted directly to Mr. Thomas A. Peebles, Chief, Operations Branch, NRC Region II Division of Reactor Safety.
