APPLICATIONS AND MEDICAL CERTIFICATIONS
FOR OPERATOR LICENSE EXAMINATIONS

Gentlemen:

Enclosed are the original and two copies of NRC Form 398, "Personnel Qualification Statement - Licensee," and NRC Form 396, "Certification of Medical Examination By Facility Licensee," for three Senior Operator applicants and three Reactor Operator applicants for the operator examinations scheduled to begin on February 20, 1998, at H. B. Robinson Steam Electric Plant (HBRSEP), Unit No. 2. These applicants have successfully completed the training required by 10 CFR 55 and are listed in the attachment.

One individual listed in the attachment to this letter is not fully prepared to take the examination at this time. Therefore, Carolina Power & Light (CP&L) Company withdraws the request for one Reactor Operator application as submitted in the draft application letter dated January 23, 1998.

CP&L requests that the written and operating tests be administered to the applicants to ensure that there will be a sufficient number of qualified operators at HBRSEP, Unit No. 2.

CP&L requests that the information in the attachment and enclosures be withheld from public disclosure in accordance with 10 CFR 2.790(a)(6) since the disclosure of this information would constitute a clearly unwarranted invasion of personal privacy.
