The Honorable James M. Inhofe
Chairman, Committee on Environment
and Public Works
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

The U.S. Nuclear Regulatory Commission (NRC) is issuing an advance notice of proposed rulemaking (ANPR) to obtain input from stakeholders on the development of a draft regulatory basis for the NRC's regulations governing radioactive effluents from nuclear power plants. The regulatory basis would support potential changes to achieve greater alignment between the NRC regulations and the 2007 recommendations of the International Commission on Radiological Protection (ICRP) contained in ICRP Publication 103. The ANPR will be published in the *Federal Register* soon for a 120 day public comment period. For more information, see the enclosed ANPR.

Please contact me at 301-415-1776 if you have questions or need more information.

Sincerely,

/RA/

Eugene Dacus, Director
Office of Congressional Affairs
