SUBJECT: ADVANCE NOTICE OF PROPOSED RULEMAKING SIGNED BY  
THE EXECUTIVE DIRECTOR FOR OPERATIONS

Office of New Reactors

Advance Notice of Proposed Rule Signed by the Executive Director for Operations

On April 17, 2015, I approved and signed an advance notice of proposed rulemaking (ANPR) to obtain input from stakeholders on the development of a draft regulatory basis. The draft regulatory basis would support potential changes to the current radioactive effluent regulations Title 10 of the *Code of Federal Regulations* (10 CFR) Part 50, Appendix I. The ANPR was developed to comply with the Commission's direction in Staff Requirements Memorandum to SECY-12-0064, "Recommendations for Policy and Technical Direction to Revise Radiation Protection Regulations and Guidance."

This notice informs the Commission that, in accordance with the rulemaking authority delegated to the Executive Director for Operations, I have signed the ANPR, and propose to forward it 5 days after date of this notice to the Office of the Federal Register for publication, unless otherwise directed by the Commission.

This ANPR does not constitute a significant question of policy, nor does it amend regulations contained in 10 CFR Part 7, "Advisory Committees," or Subpart C, "Government in the Sunshine Act Regulations," of 10 CFR Part 9, "Public Records," concerning matters of policy. I therefore find that this ANPR is within the scope of my rulemaking authority, and I intend to transmit the ANPR to the Office of Federal Register consistent with the discussion above.
