

This page provides an abstract, justification, and target dates for a potential rule that the U.S. Nuclear Regulatory Commission (NRC) has prioritized in its Common Prioritization of Rulemaking listing.

Please visit the [Rulemaking Priorities](#) page on the NRC's public Web site for additional information about this page and to view the entire Common Prioritization of Rulemaking listing.

<b>Fitness for Duty - Security Force Fatigue at Nuclear Facilities</b>				
<b>Abstract</b>				
This rule would address fatigue of security force personnel at certain materials licensee facilities (Category I fuel cycle).				
<b>Justification</b>				
This rule scores 32 points (13,7,8,4) because of the following reasons:				
A. Moderate contributor toward one goal and implements one goal strategy (security strategies 1).				
B. Moderate contributor toward multiple strategies (regulatory effectiveness strategies 1 and 2).				
C. Significant contributor toward one or more considerations or commission has provided specific direction and priority/schedule on the rulemaking. SRM-COMSECY-04-0037, dated September 1, 2004, provided Commission direction to pursue rulemaking vice Orders for those facilities for which the staff believes fatigue-related requirements are necessary for the appropriate personnel.				
D. There is significant interest in this rule from industry and stakeholders involved with Category I fuel cycle facilities.
