**Re:** Application for a new possession/use license in accordance with 10 CFR 30 & 30.33

Dear Mr Wilson,

As per our discussion today, we are withdrawing the inventory of tritium watches from Amazon's warehouse and expect to receive it at our office in Stamford CT by 20<sup>th</sup> January.

Since it is as yet unconfirmed whether or not sending inventory to Amazon is considered a transfer, we request you to process the application with the understanding that we will be holding and distributing the tritium watches from our Stamford CT location. If we receive clear guidance at some future point that sending inventory to Amazon is considered a transfer, we can do so. Until then, we will simply use the Stamford CT location and not use Amazon for tritium watches.

Please let me know if there is any further clarification required.

Sincerely,

Jay Gupta  
Director
