

June 11, 2015

The Honorable John Boehner  
Speaker of the House of  
Representatives  
Washington, DC 20515

Dear Mr. Speaker:

In accordance with the Federal Activities Inventory Reform Act of 1998 (FAIR Act) and the Office of Management and Budget (OMB) Circular No. A-76, "Performance of Commercial Activities," I am providing the Web site where the U.S. Nuclear Regulatory Commission (NRC) has posted its commercial activities inventory:  
<http://pbadupws.nrc.gov/docs/ML1321/ML13213A222.pdf>.

The FAIR Act directs agencies to develop inventories of their commercial activities and to conduct cost comparisons to determine whether a commercial activity that is performed by a governmental source should instead be performed by a private-sector source. The FAIR Act requires that federal agencies must submit to OMB, each fiscal year a list of all their activities that are not inherently governmental and that are performed by federal employees with their associated full-time equivalents (FTE). Accordingly, the list of activities performed by the NRC has been reviewed by OMB. In addition, as required by the FAIR Act, the NRC will communicate to you any changes to the list which result from challenges received from interested parties as defined by the FAIR Act.

As of June 30, 2013, the NRC's inventory contains 3,957 FTE staff, of which 270 FTE staff (or 7 percent) performs commercial activities. As required by applicable guidance, the NRC has listed FTE staff performing commercial activities by organizational unit and geographical location.

The NRC will forward to you any changes to the commercial activities inventory resulting from challenges received from interested parties as defined by the FAIR Act.

Should you have any questions concerning the NRC's FTE staff inventory, please contact Mr. Eugene Dacus, Director of Office of Congressional Affairs, at (301) 415-1776.

Sincerely,

**/RA/**
