DOCKET NO. 50-261  
LICENSE NO. DPR-23  
INADEQUATE CORE COOLING INSTRUMENTATION  
SYSTEM (GENERIC LETTER 82-28)

Dear Mr. Eisenhut:

Carolina Power & Light Company (CP&L) has received your request for additional information dated December 10, 1982 regarding the Inadequate Core Cooling (ICC) Instrumentation System for H. B. Robinson Unit No. 2. In order to address the items requested in your letter, CP&L has retained a contractor to prepare the technical information necessary. It is necessary to use a contractor due to resource limitations imposed by other, higher priority work. Upon review of the contractor's input, CP&L has found several items which require further resolution. Therefore, CP&L will not be able to respond to your request until April 25, 1983. Carolina Power & Light Company regrets any inconvenience this delay may cause but continues to be committed to only providing accurate and thoroughly reviewed material to your staff.

If you have any further questions concerning this matter, please contact a member of my staff.

Yours very truly,

S. R. Zimmerman  
Manager  
Licensing & Permits
