

February 24, 2015

Mr. Brian Yip, International Relations Officer  
Office of International Programs

Dear Mr. Yip,

On behalf of the Office of International Programs, I am writing to thank you for your significant contribution as part of the United States (U.S.) Nuclear Regulatory Commission's (NRC's) team to support the U.S. Government activities associated with the Convention on Nuclear Safety (CNS). Your diplomatic insights and international regulatory expertise ensured that the NRC's objectives for the Diplomatic Conference held February 9, 2015 were clearly articulated to the interagency team. Your close coordination with the Commission and with the various agencies of the federal government with important equities in the stable continuation of the current CNS enabled the U.S. to be prepared, flexible, and prompt in responding to other countries' interventions.

Of particular note, in addition to your valuable insights to the functioning of the CNS, your program management skills ensured that the Commission's views were sought, and relayed to the interagency in a timely fashion despite very tight schedules. As the NRC has the lead for the United States in the implementation of the Convention to achieve and maintain a high level of nuclear safety at the nation's nuclear power plants, your work to ensure this agency had a significant role in the interagency dialogue was crucial and established a well-integrated U.S. response. The NRC is now well-positioned to work with our international counterparts to incorporate the tenets of the Vienna Declaration on Nuclear Safety and prepare for the 7<sup>th</sup> CNS Review Meeting of Contracting Parties in 2017.

Sincerely,
