df

So is it NRC policy to destroy documents regarding Seabrook in order to prevent them from being released through the Freedom of Information Act?

Subject: RE: DRAFT Seabrook NOED Request - Please Delete from Your Files

Importance: High

A NOED request was not made by Seabrook Station – The work evolution was completed in about ½ the LCO time.

As a reminder, please purge the draft NOED request provided by NextEra from your email records. If you forwarded it to anyone else, please remind them as well.

Seabrook is under considerable scrutiny from the public and receives focused as well as broad- scoped FOIAs on a regular basis. Thank you!!

As the Salem NOED has been received and entered into ADAMS, and the NRC acceptance letter published today, please do the same with any draft NOED-related documents from PSEG.

Subject: FYI: DRAFT Seabrook NOED Request

Importance: High

Gentlemen:

Seabrook MAY request a NOED for its Vital Inverter. Seabrook may enter the 24-hour action statement tonight or tomorrow. Attached is a DRAFT NOED request that Seabrook may request. I want to give you a heads up so you can get people assigned and ready to roll, if necessary.

Thanks.

John

John

Per your request, attached is the draft NOED request for your review. As we discussed, certain sections are not complete as the nature and duration of the work due to emergent issues are not known.
