SUBJECT: LOCATION OF LICENSED MATERIAL

Dear Mr. Guerro Ramos:

This follows up the NRC February 10, 2015, visit and our discussion with you regarding material stored at your facility located at Doral Bank Plaza, 33 Resolution Street, San Juan, Puerto Rico, and your subsequent telephone call on February 26, 2015 with Mr. Craig Gordon of my staff.

By e-mail dated November 5, 2014, from Jose Serrant, Radiation Safety Officer, to Mr. Gordon, Mr. Serrant indicated that your industrial radiography camera was transferred to QSA Global, and provided receipt records from QSA to confirm the transfer. However, the transfer did not include the calibration equipment identified in your letter to Mr. Gordon, dated August 25, 2014 (enclosed),

During our February 10, 2015, visit, the storage area was found to be uncontrolled, unsecured, and no material was found. In the conversations with Mr. Gordon, you stated you would check with your staff to obtain information related to the location of the calibration equipment. Since you have not provided the required information, within 30 days of the date of this letter, you are requested to respond to the NRC with information related to possession and the current location of the licensed material contained in the calibration equipment.

If you have any questions, please contact me at 610-337-5205. Thank you for your cooperation.

Sincerely,
