The facility's address will remain the same as will the facility's legal name; however, the new facility will also use the assumed name "Spectrum Health Pennock" beginning May 1, 2015. 4. Licensed material surveillance policies and procedures including security, ambient and removable contamination, inventories, records, and documentation is currently in satisfactory compliance with the License conditions. Those conditions and practices will be maintained.
5. The physical plant where the licensed material is used and stored will not be decommissioned. All radioactive materials licensed to Pennock will continue to be used and stored at the same physical plant under the assumed name "Spectrum Health Pennock" and legal name "Pennock Hospital".
6. Pennock will be integrated into Spectrum as a first tier subsidiary on May 1, 2015. Our current provider number will remain the same. Spectrum will abide by all the constraints, conditions, requirements, and commitments currently held by Pennock.
