Hi,
Here you go – note – only one table actually has any data

Hi,

You should be able to just forward e-mail and the files should go the same way (sharefile) for them to download I missed the table request – will do. But, I'm assuming **not all the tables – just** what we have **in the report** on the web site (abbreviated list of tables)

Subject: RE: Quarterly Reports

Thank you

So two more questions:

1. Can I just forward this to Mike Wentzel at the NRC? Or do I need to download them all and send each one?, and
2. Will the tables be coming separately (since they mentioned figures and/or tables)?

Matt
As you suggested, the NRC has decided that they would like to have the Qtr 3 report, if possible – so that they can use some figures etc for the new Supplement to the FSEIS that they are preparing.
Thanks again.

EXTERNAL SENDER. DO NOT click links if sender is unknown. DO NOT provide your user ID or password.

Hi Dara,

We can get a copy prepared. Shouldn't be a problem, we have done this for them before.

One question, instead of Q2 14, should we provide the more recent Q3 2014– it should be on your website already.

PRIVILEGE AND CONFIDENTIAL

Hi Matt and Bill – the NRC is asking for a version of the 2nd qtr 2014 report that they can copy figures and tables from (see request below). So, I wanted to check with you and Bill to see if there were any concerns – legal or otherwise – with providing an unlocked copy.

Please let me know.

Thanks

Would it be possible for us to get an unlocked copy of the second quarter 2014 groundwater monitoring report. The copy that is posted on the website (<http://www.safesecurevital.com/environment/reports.html>) is locked such that copying is disallowed. We would like to copy some of the figures and/or tables in the report for our SEIS supplement. If there is any issues with us getting a copy, please let me know.
