Dear Mr. Haleem,

This is in reference to your letter dated March 25, 2015, requesting for amendment to Nuclear Regulatory Commission License (NRC) No. SUD-157, Docket No.04006329. In order to continue our review, we need the following additional information:

You have requested for additional amounts of material on your license which requires financial assurance. 10 CFR 30.38 states, "Applications for amendment of a license must be filed in accordance with 10 CFR 30.32..." 10 CFR 30.32(h) states that the application must contain a proposed decommissioning funding plan. You currently have a decommissioning funding plan with us, however with this amendment, the Certification of Financial Assurance dated July 2, 2007, would not be correct. Please amend and submit an new Certification of Financial Assurance with the new amounts of material.

Since your decommissioning funding plan supports this license as well as License No. 08-02075-03, Docket No. 03000638 and License No. SNM-164, Docket No. 07000190, a financial assurance action will be opened for these three licenses.

We will continue our review upon receipt of this information. Please reply to my attention at the Region 1 Office (Address below) and refer to Mail Control No. 586435. If you have technical questions regarding this letter, please call me at (610) 337-5366.

Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter, facsimile (610-337-5269), or signed letter attached to an email. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application.
