SUBJECT: AREVA NP, INC. – SUSPENSION OF SAFETY REVIEW OF U.S. EPR DESIGN
CERTIFICATION

Dear Mr. Salas:

By letter dated December 11, 2007, AREVA NP, Inc., submitted an application for standard design certification for the U.S. EPR. The application was docketed on February 25, 2008, and the U.S. Nuclear Regulatory Commission (NRC) staff commenced its six phase safety review.

By letter dated February 25, 2015, AREVA requested that the NRC suspend the safety review for the U.S. EPR design certification application. That review has been suspended and the associated tasks have been closed. At AREVA's request, the NRC staff is continuing work on its review of Topical Report ANP-10287P, "Incore Setpoint and Transient Method for U.S. EPR," and we will issue a safety evaluation report (SER) on that document when our review is complete.

Following issuance of two remaining audit reports there will no longer be a Lead Project Manager assigned to the U.S. EPR design center. Some contract issues may take a few months to close; these will be assigned to Ms. Phyllis Clark. She can be reached at (301) 415-6447. If you have any questions, I can be reached at (301) 415-1494.

Sincerely,

George F. Wunder, Senior Project Manager,
