Subject: Permission to Make NSAL-15-2 Publicly Available

Leah,

As discussed, I intend to make NSAL-15-2 publicly available through the NRC's web site. NRC policy requires owners of copyrighted content to provide permission to the agency before their content is made available to the public. Please confirm that Westinghouse provides permission to make NSAL-15-2 available to the public.

Thank you for your help in this matter.

Best Regards,
Dave
