LICENSEE: NextEra Energy Point Beach, LLC

FACILITY: Point Beach Nuclear Plant, Units 1 and 2

SUBJECT: SUMMARY OF APRIL 6, 2015, MEETING WITH NEXTERA ENERGY POINT BEACH, LLC, TO DISCUSS THE LICENSE AMENDMENT REQUEST FOR TRANSITION TO NATIONAL FIRE PROTECTION ASSOCIATION STANDARD (NFPA) 805 FOR THE POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2 (TAC NOS. MF2372 AND MF2373)

On April 6, 2015, a Category 1 public conference call was held between the U.S. Nuclear Regulatory Commission (NRC) staff and representatives of NextEra Energy Point Beach, LLC (NextEra, the licensee) at NRC Headquarters, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. The purpose of the conference call was to discuss NextEra's proposed method for estimating the change in risk associated with fires that might result in main control room abandonment on loss of control at the Point Beach Nuclear Plant, Units 1 and 2 (Point Beach). The meeting notice and agenda, dated March 23, 2015, are available in the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML15091A736. A list of the meeting attendees is enclosed.

The licensee provided slides for the presentation (ADAMS Accession No. ML15091A517), which were attached to the meeting notice prior to the meeting. During the conference call, the licensee discussed each of the presentation slides. The NRC staff asked some clarification questions during the presentation. After the presentation, the staff indicated that the information presented during the meeting appeared to be in accordance with the guidance established for the NFPA 805 projects. However, an additional request for information may be needed to obtain further clarification on the information previously submitted on the docket. The NRC staff stated that it would review the provided information and, if needed, provide a request for additional information and establish the next steps to support completion of the license amendment request.

There were members of the public who attended the teleconference. However, public meeting feedback forms were not requested by anyone.
