Re: Proposed revisions for Nine Mile Point Unit 1 March 2015 operating exam

The following revisions have been made to the Nine Mile Point Unit 1 March 2015 operating exam based on submittal comments and NRC prep week:

Scenario 2

- Made adjustment to field reports coming into the control room.

Scenario 3

- Made adjustment to field reports coming into the control room.

Simulator JPM 5

- Downgraded from alternate path.

Simulator JPM 8

- Downgraded from alternate path.

Simulator JPM 6

- Replaced with a new alternate path JPM.
- Added an examiner note regarding steps that can be performed concurrently.

Simulator JPM 7

- Minor adjustment to simulator initial conditions.

Admin JPM RO/SRO COO2

- Added additional clarifying information to the KEY
- Made editorial change to applicant handout.

Admin JPM SRO RC

- Added an additional KEY for a form the applicant completes.

Admin JPM SRO EP

- Added additional KEYs for forms the applicant completes.

Admin JPM RO EP

- Added evaluator cue to terminate JPM after final critical step.
