

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

May 26, 2015

The Power Reactor Licensees
on the Enclosed List

SUBJECT: RESPONSE REQUIREMENTS FOR REQUEST FOR INFORMATION
PURSUANT TO TITLE 10 OF THE *CODE OF FEDERAL REGULATIONS*
50.54(f) REGARDING FLOODING HAZARD INTEGRATED ASSESSMENTS
FOR RECOMMENDATION 2.1 OF THE NEAR-TERM TASK FORCE
REVIEW OF INSIGHTS FROM THE FUKUSHIMA DAI-ICHI ACCIDENT

The U. S. Nuclear Regulatory Commission (NRC) is in the process of evaluating its approach to address Near-Term Task Force (NTTF) Recommendation 2.1, flooding. Therefore, the NRC is deferring, until further notice, the due date for licensees to respond to the request for Integrated Assessment Reports. This deferral is due to the staff's ongoing effort to respond to the Commission's direction in the Staff Requirements Memorandum (SRM) to COMSECY-14-0037, "Integration of Mitigating Strategies for Beyond-Design-Basis External Events and the Reevaluation of Flooding Hazards," issued on March 30, 2015 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15089A236).

BACKGROUND

On March 12, 2012, the NRC issued a request for information pursuant to Title 10 of the *Code of Federal Regulations*, Part 50, Section 50.54(f) (hereafter referred to as the 50.54(f) letter). The purpose of that request was to gather sufficient information to enable the NRC staff to determine whether nuclear plant licenses should be modified, suspended, or revoked.

Enclosure 2 of the 50.54(f) letter, "Required Response," Item 3, requests that Integrated Assessment Reports be submitted within 2 years following the submittal of a flood hazard reevaluation report (FHRR). Subsequently, by letter dated November 21, 2014 (ADAMS Accession No. ML14303A465), the NRC extended the due date for the submittal of the Integrated Assessment Report for those sites which are required to submit an Integrated Assessment Report and had submitted an FHRR prior to June 2013. The relevant sites were given an additional 6 months to provide the requested Integrated Assessment Report. Therefore, the requirements for submitting an integrated assessment was established as 2 years and 6 months from the date of the FHRR for those sites that submitted an FHRR prior to June 2013, and 2 years from the date of the FHRR for all other sites.

On March 30, 2015, the Commission issued an SRM in response to COMSECY-14-0037. The SRM stated that "the staff should reassess the guidance developed for the Phase 1 integrated assessments," and provided several criteria that the guidance should consider. The SRM further stated that "the NRC staff should proceed expeditiously to clearly define the steps needed to complete our actions in response to NTTF Recommendation 2.1 for flooding and, within 3 months of the date of the SRM for COMSECY-14-0037, provide a plan for achieving closure of this recommendation to the Commission for review and approval." The NRC staff is in the process of developing the plan for closure of NTTF Recommendation 2.1 for flooding. The

plan will be provided to the Commission on June 30, 2015, for its review and approval and subsequently will be released to public.

DEFERRAL OF INFORMATION REQUEST

Based on the above considerations, the staff is deferring, until further notice, the date for submitting the Integrated Assessment Reports. The NRC expects to provide additional clarification and schedule information as the staff develops and implements the closure plan for the NTTF Recommendation 2.1 reviews.

If you have any questions on this matter, please contact Mr. Victor Hall at (301) 415-2915 or Victor.Hall@nrc.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'W M Dean', with a long horizontal flourish extending to the right.

William M. Dean, Director
Office of Nuclear Reactor Regulation
