Selected Licensee Commitments Manual (SLC)

Gentlemen:

Pursuant to 10CFR 50.4 and 50.71, please find attached 7 copies of the latest revisions to the Oconee Selected Licensee Commitments Manual. The SLC Manual is Chapter 16.0 of the Oconee UFSAR. This manual is intended to contain commitments and other station issues that warrant higher control, but are not appropriate for inclusion into the Technical Specifications (TS). Instead of being updated with the annual UFSAR Update, the SLC Manual will be updated as necessary throughout the year.

Very truly yours,

W. R. McCollum, Jr.
Vice President
Oconee Nuclear Station

To: Manual Holders

Subject: Ocone SLC Revision

Please revise your SLC Manual according to instructions. This SLC adds electrical equipment to the ESV building.

Please update your copy of this manual as follows:

Remove These Pages

LOEP 1
LOEP 5
LOEP 6
SLC 16.9-18
SLC 16.9-19(d)

Insert These Pages:

LOEP 1
LOEP 5
LOEP 6
SLC 16.9-18
SLC 16.9-19(d)

Any questions concerning this revision may be directed to Mike Bailey 864-885-4390.

- c. Each of the fire detectors listed in Table 16.9-6 with the exception of generator detectors shall be tested for sensitivity at least annually.

BASES:

OPERABILITY of the Fire Detection Instrumentation ensures that adequate warning capability is available for the prompt detection of fires. This capability is required in order to detect and locate fires in their early stages. Prompt detection of fires will reduce the potential for damage to safety related equipment and is an integral element in the overall facility fire protection program.

In the event that a portion of the Fire Detection Instrumentation is inoperable, the establishment of compensatory actions in the affected areas is required to provide detection capability until the inoperable instrumentation is restored to operability.

This Selected Licensee Commitment is part of the Oconee Fire Protection Program and therefore subject to the provisions of Oconee Facility Operating License Conditions.
