Subject: Oconee Nuclear Station  
Docket Nos. 50-269, -270, -287  
(TAC Nos. M99121, M99122, M99123, M99141)

By letter dated March 12, 1997, Duke Energy (formerly Duke Power Company) submitted for review, "Oconee Nuclear Station, Units 1, 2, & 3, License Renewal - Technical Information Topical Report," OLRP-1001, Revision 1, February 1997. Duke Energy requested that the staff review the section pertaining to the Oconee Reactor Buildings. By letter dated November 14, 1997, the NRC staff provided areas where additional information is needed to complete its review and requested that Duke Energy inform the staff of its plans and schedule for responding to the requests for information.

The responses to the NRC requests for information are currently being prepared. Duke Energy will submit a letter containing responses to all of the requests for information by January 30, 1998. Some of the responses will not require any changes to OLRP-1001; other responses will include the identification of proposed changes which will be provided in the next revision to OLRP-1001. Duke Energy currently plans to submit Revision 2 of OLRP-1001 in the second quarter of 1998.

If there are any questions regarding this response, please contact Bob Gill at 704-382-3339.

Very Truly Yours,

W. R. McCollum Jr., Site Vice President
