SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE  
OF LOCKHEED MARTIN SUBMITTAL OF REVISED LOCKHEED MARTIN  
NuPAC SUPPORTING DOCUMENTATION (TAC NO. ME7900)

Dear Mr. Troy:

By letters dated April 14, 2015 and April 17, 2015 (Agencywide Documents Access and Management System Accession Nos. ML15105A378 and ML15117A099), you submitted affidavits (dated April 14, 2015, and April 17, 2015). These affidavits requested that the information contained in the following document be withheld from public disclosure under Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, "Hearing Requests, Petitions To Intervene, Requirements for Standing, and Conditions."

- NuPAC Configuration and Data Management Plan; NuPACMP610000-001 Revision F
- NuPAC Inaccuracies and Uncertainties; NuPACED610000-060 Revision (-)
- NuPAC Software Tool Evaluation Plan; NuPACPLDP610000-005 Revision D
- NuPAC Quality Assurance Plan; NuPACQAP610000-001 Revision D
- NuPACPLDP610000-001 Rev. D; NuPAC Programmable Logic Development Plan (PLDP)

Your letter stated that Lockheed Martin did not plan to submit nonproprietary versions of the documents. The basis given was that, because of the extensive amount of proprietary information in the documents, a nonproprietary version would be of no value to the public.

Your affidavits detail the reasons for withholding the information.

The U.S. Nuclear Regulatory Commission (NRC) staff has reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, has determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version(s) of the submitted information marked as proprietary will be withheld from public disclosure under 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

P. Troy

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, the NRC may send copies of this information to its consultants working in this area. The agency will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC.

You also should understand that the NRC staff may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC staff makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-7297 or [Joseph.Holonich@nrc.gov](mailto:Joseph.Holonich@nrc.gov).

Sincerely,
