SUBJECT: NRC INSPECTION REPORT NO. 03037501/2014002, DIAMOND TECHNICAL SERVICES, INC., BLAIRSVILLE, PENNSYLVANIA SITE AND NOTICE OF VIOLATION

Dear Mr. Prebish,

On February 9, 2015, Randolph Ragland of this office conducted a security inspection at the above address and at a temporary jobsite located at MEC Construction, in Meadowbrook, WV, of activities authorized by your NRC license. The inspection continued in-office until April 7, 2015. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. Additional information received by the NRC on April 6, 2015, was also examined as part of the inspection. The findings of the inspection were discussed by telephone with you and Jim Connors on April 7, 2015.

Based on the results of this inspection, the NRC determined that one violation of NRC requirements occurred. Because of the security-related nature of this violation, specific details of this violation will not be provided in this letter, but instead are provided in non-public enclosures. The violation was evaluated in accordance with the NRC Enforcement Policy. The current Enforcement Policy is included on the NRC's website at <http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>. The violation is cited in the Notice of Violation (Notice), provided as Enclosure 1 to this letter. The violation is cited because the violation was identified by NRC. Enclosure 2 provides a description of the corrective actions taken by Diamond Technical Services, Inc. to address the violation.

The NRC has concluded that information regarding the reason for the violation, the corrective actions taken and planned to correct the violation and prevent recurrence is already adequately addressed in our records. Therefore, you are not required to respond to this letter unless the description of your corrective actions in Enclosure 2 does not accurately reflect your corrective actions or your position. In that case, or if you choose to provide additional information, you should follow the instructions specified in the enclosed Notice.

<p>Enclosures contain Sensitive Unclassified Non-Safeguards Information. Upon separation, this cover letter is decontrolled.</p>
