Dear Mr. Del Vecchio:

On April 16, 2015, Nuclear Regulatory Commission (NRC) staff met representatives from CB&I AREVA MOX Services and members of the public in a meeting conducted at the Applied Research Center, 301 Gateway Drive in New Ellenton, South Carolina. The purpose of this meeting was to discuss the results of CB&I AREVA MOX Services' performance in the areas of quality assurance, facility construction, and licensing activities covering the period from January 1, 2014 to December 31, 2014. The meeting afforded members of the public the chance to ask questions to the NRC regarding your facility's performance and the NRC applicant performance review process.

A public meeting notice was issued on March 16, 2015, and was posted on the NRC's external (public) web page (ADAMS Accession Number: ML15076A364). The notice included the meeting agenda. Attached is a list of attendees and a copy of the presentation used by the NRC.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency wide Document Access and Management System (ADAMS).
