Lisle, IL 60532-4352

Re: License No. 21-13562-01, Crittenton Hospital Medical Center.

Please add 1 mCi of Radium-226 to our license. There is no physical sealed source, just contamination that has been contained in a lead pig. This was found during a recent inspection by Ryan Craffey. We are currently working with a waste broker for the removal of this container.

Thank you for your cooperation with this matter. If you have any questions or require additional information please contact our physicist, Michelle L. Kritzman, at (734) 662-3197.

Respectfully,

Roy Powell
President / CEO
Crittenton Hospital Medical Center
Rochester, Michigan 48307-1831
