NOTICE

This message is intended only for the use of the individual or entity to which it is addressed and may contain information that is privileged, confidential, or exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee responsible for delivering the message to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you received this communication in error, please notify the sender immediately by telephone and return the original to the above address, by U.S. Mail. Thank You.

The following additional information is needed to complete the review of your request to remove the location of use at 1501 Hartford Street, Lafayette, Indiana, from your NRC license.

1. Please submit a history of radionuclides used at your old facility located at 1501 Hartford Street, Lafayette, Indiana. For example, millicurie quantities of technetium-99m in liquid form was used for diagnostic imaging studies. Microcurie amounts of cesium-137 in sealed source form was used for instrument calibration.
2. Please submit a copy of the leak tests for the sealed sources that was current on the date of the close-out survey.
3. Please specify if you ever had any leaking sealed sources.
4. Please confirm that the close-out survey date was on February 16, 2015.
5. Please specify the make and model number of the survey instrument used for the exposure rate measurements. For example, a Ludlum, Model 14-C, Geiger-Muller survey meter was used to measure the exposure rates for the close-out survey.
6. Please specify the make and model number of the instrument used to analyze the wipe test samples. For example, a Capintec Model Caprac-T, well counter was used to analyze the wipe test samples for the close-out survey.
7. Please specify the background radiation levels for the exposure rate measurements.
8. Please specify the radiation background for the wipe test samples.
9. Please specify the date of the Geiger-Muller survey meter calibration that was current at the time of the close-out survey.
10. Please provide confirmation that all radioactive waste and radioactive sealed sources have been removed from the old facility at 1501 Hartford Street, Lafayette, Indiana. Please provide a copy of the acknowledgement letter/papers that all radioactive materials have been received at your "East Campus" at 1701 S. Creasy Lane, Lafayette, Indiana.

Please send a facsimile (630-515-1078) of your response to the above within 14 days and state, Response to Control 586220. Please include a cover letter on company letterhead, dated and signed (signed by an individual who is authorized to sign official documents on behalf of the licensee) with your response letter. Please call me at 630-829-9839 if you have any questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this facsimile and the attached documents will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

From the desk of:

A handwritten signature in cursive script, appearing to read "Bill Reichhold".

Bill Reichhold
