Good afternoon,

I hope this message finds you well.

I'm looking to acquire a full and complete list of sites with inactive licenses. Sites that use to be on the Material Licensing Tracking System (MLTS) list but were removed for whatever reason including those sites that were removed when they (the State) became an 'Agreement State'.

For instance, I understand that Ohio became an 'Agreement State' in 1999, and when this happened, the Ohio sites were no longer included in the MLTS list.

However prior to 1999, there were licenses issued to facilities in Ohio, and these sites were included in the MLTS list.

That said, if you could please provide a complete and detailed list of these sites and other inactive sites (that were once on the MLTS list but have been removed) that would be greatly appreciated.

Also can you please provide this data in Excel format.

If you have any questions, or require further clarification on this request, please feel free to contact me.

Thank you for your time and I look forward to hearing from you.

Best,  
SH
