

May 7, 2015

Dr. Yong Hwan Kim, Secretary General  
Nuclear Safety and Security  
Commission of Korea  
13F KT Bldg, 178 sejong-ro  
Jongno-gu  
Seoul, 110-777  
Republic of Korea

Dear Dr. Kim:

I write to extend my sincere gratitude for your efforts, and those of your staff, to plan and execute a productive Steering Committee Meeting (SCM) on April 8, 2015. I found the presentations and discussions on each topic valuable and supportive of our cooperative efforts. With this meeting concluded, I believe we have set a comprehensive path forward for our future activities, and our staff looks forward to coming interactions with the Nuclear Safety and Security Commission (NSSC).

I was particularly pleased that we were able to sign the Memorandum of Meeting establishing a protocol for sharing information between our organizations on issues related to counterfeit, fraudulent, and suspect items (CFSI). As we discussed, we will identify a mutually convenient time this year to sign the Memorandum of Cooperation on CFSI. I am confident that, through our continued cooperation we will enhance awareness of this important subject in the international community and promote further dialogue among regulators worldwide.

In addition to our successful meeting, the U.S. Nuclear Regulatory Commission delegation truly appreciated NSSC's warm hospitality before and during our visit. From the information we received from NSSC staff in planning the details of the trip to the NSSC staff's assistance with logistics and interpretation during meetings and site visits, the NSSC made us feel welcome and at home in Korea!

Again, thank you for a very productive SCM and visit to the Republic of Korea. We look forward to our continued cooperation with the NSSC and associated organizations, and we will work to ensure that the next SCM in the United States is equally successful.

Sincerely,

/RA/

Michael R. Johnson  
Deputy Executive Director for Reactor  
and Preparedness Programs  
Office of the Executive Director for Operations
